10 Designer handoff

Designer's eye. Artist's hands. Storyteller's imagination.

Graffeine Tales is an independent creative studio and gifting atelier bringing together graphic design, handmade art, illustration and products with personality.

OUR PURPOSE

Turn ideas and everyday moments into thoughtful design, handmade keepsakes and expressive products people want to use, share and gift.

POSITIONING LINE: WHERE STORIES BECOME ART.

Four pillars shape every decision

The website should feel creative and personal without sacrificing clarity or polish.

01 DESIGN-LED

Considered concepts, distinctive typography, visual storytelling and professional execution.

02 HANDMADE & PERSONAL

Human detail, embroidery, personalisation and the warmth of made-with-care objects.

03 PLAYFUL & EXPRESSIVE

Witty ideas, cultural references, illustration and products with personality.

04 POLISHED & PRACTICAL

Print-aware design, thoughtful finishing, clear information and easy customer journeys.

One distinctive mark. Clear rules.

DARK WORDMARK / LIGHT BACKGROUND

graffeine Tales

LIGHT LOGO / DARK BACKGROUND

The supplied wordmark, script “Tales” and coffee-cup illustration are the recognisable signature. Preserve the original artwork.

Protect the logo's character

- Keep original proportions, colours and letterforms.
- Leave generous clear space around the full lockup.
- Use the cream version on dark charcoal / coffee backgrounds.
- Use the dark wordmark on warm paper / light backgrounds.
- Use SVG for web if available; otherwise use a high-resolution transparent PNG.
- Create a favicon from an approved simplified cup mark.

NEVER stretch • rotate • add effects • recolour ad hoc • place on busy imagery

A warm, coffee-inspired visual world

Core colours are matched to the supplied logo artwork; confirm exact values against original editable files.

BODY / INTERFACE

Aa Bb Cc 123

Product details, navigation, forms and buttons should be easy to scan and understand.

Suggested: Inter or DM Sans

These are proposed web fonts, not confirmed logo fonts. Test final font loading, mobile readability and licensing.

Warm, tactile, editorial—not cluttered

PHOTOGRAPH THE REAL THING

Actual products, packaging, embroidery stitches, print finishes, paper texture and work in progress.

LET ARTWORK LEAD

Clean product shots and simple backgrounds. Use illustration and doodles as intentional accents.

SHOW THE HUMAN SIDE

Founder, process and commissioned work. Get permission for customer images and client logos.

Avoid generic stock imagery, excessive coffee graphics, busy backgrounds and decorative elements that compete with products.

Personality with purpose

WE ARE

Creative • warm • thoughtful • playful • design-conscious • detail-oriented

WE ARE NOT

Generic • cluttered • overly cute • forced slang • vague luxury claims

PRODUCT VOICE

Witty, desi, expressive and culturally aware when it fits the collection

SERVICE VOICE

Confident, helpful, specific and precise about scope, timelines and next steps

Sample line: “A little art for your everyday coffee ritual.”
